BDSM CAGE

WITH GLORY HOLE AND
ST. ANDREW'S CROSS

"Luxxx.eu BDSM Cage" perfectly reflects the atmosphere of captivity. Our cage is not only about the joy of obeying under the threat of punishment. You can realize your fantasies on the attached Saint Andrew's Cross. The wooden structure of the cross is attached to one of the sides of the cage, making it possible to bind the arms and legs. Importantly, a very strong wooden cross is varnished 5 times and additionally ground and polished. At the bottom of the cage, there are ears for mounting chains or handcuffs. In the upper part, handles for restraint are prepared. When designing, we took into account the height of the restrained people, and the handles were designed at different heights: 174 cm, 183 cm, 192 cm and 208 cm. Another advantage of our furniture is the glory hole function. Imagine there is someone on the other side of our leather wall you don't know.

Our BDSM cage has one more advantage, because we have installed 6 handles in the upper part. You can use them to restrain or, for example, install a swing. Shibari / bondage professionals will have no problem with optimal use of the structure and top hooks.

The upper wall of the cage has been designed so that you can freely stick to the structure, but also take into account the height of the imprisoned person over 200 cm. An element that can perfectly complement our fun is the adjustable headband.

In order to maintain 100% hygiene in the opening, a special certified hygienic insert has been installed.
